The palace, which has been fully refurbished with the utmost care to preserve its historical identity and aesthetic, dates back to the 16th century and is set against an exquisitely beautiful backdrop.

This unique property offers the perfect blend of history, tranquility, luxury, comfort and art in a fabulous location just 300 metres from Trujillo's Plaza Mayor.

As we step into the palace's elegant interior we are met with a spacious, beautiful hall, which leads through to the main living room, where a stunning corner window and wide fireplace instantly catch the eye, as well as an additional living room, a multi-use space with vaulted ceilings and a cosy library area.

The marriage of stone and wood, the high ceilings and the traditional material used all afford an air of warmth, comfort and authenticity.

The seven bedrooms – each with its own en-suite bathroom – vary in size from 20 sqm to 60 sqm, with some boasting their own private living area and terrace.

The gardens, porch and pool add infinite appeal to the palace, enhancing its beauty and making it a truly unique find.

Another detail that sets this property apart is the fact that it is the only palace in the world with a corner window and door; Trujillo-born architect Francisco Becerra used a blend of Gothic and Renaissance techniques in its construction.

The property is ideally positioned for use as a charming boutique hotel or a luxurious family home.

Its location is unbeatable. Just a stone's throw from the Plaza Mayor in Trujillo, one of the most beautiful historical towns in the province of Cáceres, it also offers seamless access by highway and is less than an hour from Mérida and very near Monfragüe National Park.
